## SERVICES

### Homecare Services

CH Health & Home Care Services Inc. offers a wide range of health care services to clients in their private residences. These services enable our clients to maintain their dignity while living independently at home. All new homecare clients will be assessed to identify their individualized needs. A tailored care plan will be created and modified as clients' needs change.

We provide short and long-term care for clients with varied needs. Our clients include seniors, individuals with special needs (physically and mentally challenged), individuals recovering from illness, and children.

- Health Care Aide Services: We assist clients with all activities of daily living for those with special needs and reduced mental and physical capabilities. These services can include bathing, cooking, laundry, feeding, shopping, transporting clients to medical appointments, transferring clients with physical impairments, companionship, and general housekeeping duties.
- Nursing Services: Our nursing team administers medications and performs nursing assessments (including checking vital signs and blood sugars), tube feeding, intravenous and oxygen monitoring, wound care, and other nursing interventions.
- Child Care Provider Services: We provide respite to families with children with special needs and supervision of children in transition who are awaiting placement.

### Health Care Facility Services

CH Health & Home Care Services Inc. provides temporary employment placement of qualified staff for short and long-term care within hospitals, personal care homes, and other health care facilities.

Our staff includes Registered Nurses, Licensed Practical Nurses, Health Care Aides, and Support Staff (performing laundry, housekeeping, and dietary department duties).
